\*As made available by broadband providers - service may not be available throughout these communities.  
 Satellite service is available for all localities within Region 2000 with a clear view of the Southern sky.

<sup>1</sup> Fiber service is generally for business purposes only and not for private residences.

<sup>2</sup> Broadband over Powerline may not presently be available in these communities, but the goal is to introduce the technology throughout CVEC's network in the coming years.

<sup>3</sup> Planned expansion of GNS Networks in the near future.
